

# Discover Hoylu's Dynamic Tools

Say hello to a world where creativity is limitless and productivity soars. Hoylu's dynamic and intuitive tools are designed to transform your team's collaboration. Here's a brief overview.

## WORKSPACE OPTIONS

Edit Workspace Info, Import, Export, Share and Search the Workspace, as well as access the Hoylu Control Center.

## BOOKMARKS

Gain quick access to your Workspace's Home Page, and access Bookmarks you've defined allowing for streamlined navigation.

## OVERVIEW MODE

View your Workspace in a high-level mode to manipulate pages, boards, and backgrounds as well as define Bookmarks.

## PRESENTER MODE

Take charge of your collaborative sessions by initiating Presenter Mode. This unites all collaborators under your Workspace view.

## CURSORS

Choose to reveal collaborator Cursors for insight into ongoing work, or opt to hide them, ensuring an anonymous work environment.

## TIMER

Set a timer in your Workspace to keep your activities on track with visual cues to let your team know it's time to move on.

## DRAWING STRAIGHT LINES

As you draw a line, hold it for a second and Hoylu will snap your stroke to a straight line automatically.

## IMPORT

Import images, documents, links, and Portals into your Workspace to build a dynamic collaboration hub.

## COLOR & OPACITY

Enjoy the freedom to tailor Pen Strokes, Notes, Shapes, and Connections to your liking. Modify aspects like color, stroke style, and opacity for a personalized touch.

## LOCK TO BACKGROUND

Safeguard your design integrity by locking images, text, or documents to the Workspace background. This prevents accidental movements or selections.

## ADDING LINKS

Enhance your content with external information by effortlessly adding links to images, notes, shapes, text, or tasks.

## EDITING TEXT

Text edits are a breeze. Whether it's a text box or sticky note, simply click to edit. Remember, you can break lines with "shift+enter."

## SUBMENU EDITS

Clicking on an element opens up a world of possibilities. Explore transformation tools and property edits such as fill colors and outlines.

## EMOJIS

Via the Asset Panel, you are equipped with an Emoji Library for voting, commenting, and promoting engagement.

## SHARING A WORKSPACE

Share your Workspace seamlessly with your team via email or Workspace URL. Customize permission settings to align with your unique processes.
