

PI Planning

ADAPT FASTER & EASIER

Gone are the days of the “big room” experience where project teams gathered for Agile PI Planning sessions. As organizations embrace remote workforces, they’re turning to online collaboration tools to manage these events.

Our PI Planning Modules are easy to use and improve the way your team naturally works. You’ll get things done more effectively, release more features in less time, and stay on budget. Take a closer look at the features and benefits.

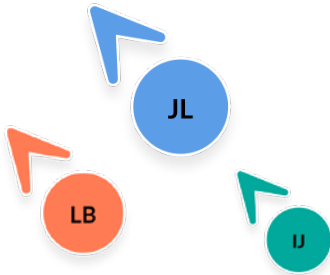

Increase Agility

Real-time collaboration helps your team reduce time-to-market and improve customer satisfaction.

Strengthen Agile & Lean Practices

Keep your teams on track with built-in business logic for Agile, Lean, PI Planning, and other project frameworks. Improve customer satisfaction.

Deepen Collaboration & Improve Performance

Align remote teams strategically and enable cross-team collaboration, enhance ideation, and facilitate brainstorming to avoid potential problems.

Adapt Faster & Easier

Import Jira and Agility tickets to visualize, plan, manage, and share sprints, product roadmaps, backlogs and other projects.

Optimize Rituals & Ceremonies

Engage every stakeholder in PI planning, dependency mapping, confidence votes, capacity planning, and other Agile ceremonies.
